## MANAGEMENT DISCUSSION AND ANALYSIS

### INDUSTRY STRUCTURE AND DEVELOPMENT

India is the fourth largest producer of steel. It is a core industry for, as well as primary and secondary employment generation. The growth in the Indian steel sector has been driven by domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India's manufacturing output. India's steel demand growth to be the highest among major steel-producing nations at 5.4% to 83.8 MT in 2016, even as demand will fall globally by 0.8% to 1,488 MT after shrinking 3% in 2015. It is expected that India's steel demand would further grow by 5.4% in 2017. It is expected that consumption per capita would increase supported by rapid growth in the industrial sector, and rising infra expenditure projects in railways, roads & highways, etc

### OPPORTUNITIES AND THREAT

#### Opportunities:

The Indian steel industry is expected to register exponential growth in the future, riding on increasing urbanization, and projected growth of infrastructure, automobile and real estate sectors. By imposing anti-dumping duty, safeguard duty on imported steel products and policy announcement on minimum import price (MIP). The government has also notified Mines and Minerals (Development and Regulation) Amendment Act, 2015 to streamline grant of mining leases in order to maintain sufficient availability of raw materials for the various sectors including steel sector. After these steps, the pressure on the steel industry is gradually coming down.

#### Threats:

Indian Steel Industry is passing through stress for some time due to rising imports. The industry faces external as well as internal threats. China and Russian producers will keep flooding the market directly or indirectly. The manufacturing cost in India remains high and with coal getting auctioned, it will only go up further. Rising cost of raw material, fuel, power prices coupled with unforeseen general macro economic factors and political turmoil may affect the industry adversely.

### FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

During the year under review company concentrated on manufacturing of Bars, beams, flats, plate, coil, slab, billets etc. Production of bars, beams and flats during the year was 630.024 MT as compared to 1,058.930 MT in the previous year. Accordingly sales during the year was 2,433.975 MT. Increase in the sale was due to opening stock at the beginning of the year. Production of plate & coil during the year was 38,105.827 MT as compared to 51,019.070 MT in the previous year. Accordingly sales during the year was 39,173.284 MT as compared to 47,316.701 MT in the previous year. Likewise production of Slab, billets etc. was 50,126.913 MT as compared to 2,685.094 MT. Accordingly sales during the year was 48,878.465 MT as compared to 5,292.585 MT in the previous year. Total production of all items taken together increased from 54,763.094 MT to 88,862.754 MT registering increase by 30%. Accordingly total sales during the period increased from 54,502.046 MT to 90,485.724 MT registering increase by 66%.

During the year under review Net Turnover of the Company has been decreased marginally from ₹ 265.82 crores to ₹ 262.37 crores as compared to previous year's turnover. There is marginal reduction in turnover since production of bars, beams, flats, plate & coil was reduced considerably on account reduction in demand of these items. Company has registered a net profit of ₹ 123.17 crores in comparison to the loss of ₹ 135.18 crores during previous year. Main reason for profit during the year under review was settlement of dues with ARCs on account of reversal of interest and waiver of principal debts. Many a banks had transferred their debts to ARCs and finally dues were settled with few ARCs. Settlement of dues has been made as per directions of Hon'ble BIFR since the company had been declared as SICK Company pursuant to the provisions of SICA.

### OUTLOOK

The global steel market is suffering from insufficient investment expenditure and continued weakness in manufacturing sector. With the imposition of the MIP, the Indian steel market has become a closed box. While steel continues to have a stronghold in traditional sectors such as construction, housing and ground transportation, special steels are increasingly being used in engineering industries such as power generation, petrochemicals and fertilizers. India occupies a central position on the global steel map, with the establishment of new state-of-the-art steel mills, acquisition of global scale capacities by players, continuous modernization and up gradation of older plants, improving energy efficiency and backward integration into global raw material sources. India's prospects are brightening due to low oil prices, the reform momentum and policies to increase infrastructure and manufacturing output. India's steel demand will increase by 5.4 per cent in both 2016 and 2017 reaching 88.3 MT in 2017. On the outlook, economic environment facing steel industry continues to be challenging with China's slowdown impacting globally across a range of indicators contributing to volatility in financial markets, sluggish growth in global trade and low oil and other commodity prices.

Steel industry derives its demand from other important sectors like infrastructure, aviation, engineering, construction, automobile, pipes and tubes etc. With the Indian economy poised for its next wave of growth under the reforms being unleashed during recent past, there lies tremendous opportunity for the Indian steel industry to prosper and grow exponentially.

The present government's 'Make in India' campaign is aimed at transforming the country into a global manufacturing hub and creating millions of jobs for those who will join the workforce in the coming years. Besides 'Make in India', present government's flagship programmes, such as the 'Smart Cities Mission' and the 'Housing for All by 2022' will boost the industry.

## SHAH ALLOYS LIMITED

### ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF SHAH ALLOYS LIMITED

#### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Shah Alloys Limited (the Company) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence I/we have obtained is sufficient and appropriate to provide a basis for my /our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## SHAH ALLOYS LIMITED

### ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS OF SHAH ALLOYS LIMITED Referred to in our Report of even date

#### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2016, We have audited the internal financial controls over financial reporting of Shah Alloys Limited (hereinafter referred to as "the Holding Company") and its associate company, which is incorporated in India.

#### Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding company and its its associate company, which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Holding Company and its associate company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

- e) In case where an Investor's share of losses of an associate equals or exceeds the carrying amount of the investment, the investor ordinarily discontinues recognising its share of further losses and the investment is reported at nil value. If the associate subsequently reports profits, the investor resumes including its share of profits only after its share of profits equals the share of net losses that have not been recognised earlier.
