### EXPLANATION TO THE AUDITORS' REMARKS

The Directors submit their explanations to the qualifications made by the Auditors in their report for the year 2013-14. Para nos. of Auditors' Report and reply are as under:

#### Under the head "Basis for Qualified Opinion"

Dues on account of maturity of Foreign Currency Convertible Bonds (FCCB) on 22.09.2011 have been frozen on maturity and accordingly exchange rate fluctuation has not been considered thereafter. Payment of FCCB shall be considered as per the scheme that may be considered by Hon'ble BIFR.

#### "Para - iii - (c)" of Annexure to Independent Auditors' Report

SAL Steel Ltd was incorporated as backward integration project for Shah Alloys Limited. The finished product of SAL Steel Ltd becomes Raw material for Shah Alloys Ltd. However, due to financial crisis, Shah Alloys Ltd is not functioning on its optimum capacity and as such, SAL Steel Ltd is not getting sufficient orders to optimize its production capacity. This has adversely affected production of the SAL Steel Ltd. Thus accruals for SAL Steel Ltd are not enough to pay back the amount after making payment of interest and installments to its lenders. We are writing letters to SAL Steel Ltd. for recovery of amount but due to financial stress faced by SAL Steel Ltd, they are not able to make the payment. Since the CDR of the Company has been scrapped by the lenders, the payment of Inter-Corporate Deposits shall be considered as part of the Scheme that may be considered by the Hon'ble BIFR.

#### "Para - ix - (a)" of Annexure to Independent Auditors' Report

Payments of Statutory dues were marginally delayed on account of slow recovery/collection. However, the same has been paid.

#### "Para - xi" of Annexure to Independent Auditors' Report

As per the scheme sanctioned by CDR (EG) consortium bankers were required to give working capital for the optimal utilization of production capacity. However, in the absence of non availability of funds from the lenders, the accruals were not in line with the sanctioned scheme and hence Company could not utilize optimally its production capacity. In view of this, Company was not able to make payments to banks/institutions and debenture holders as per the sanctioned scheme. However, before due date of repayment, Company had approached Hon'ble BIFR for declaring it as a Sick company under Section 3(1)(o) of the SICA and was declared so before the due date, i.e., June 2011. On account of sick company status, payments were not made as per CDR. Company has submitted OTS proposal. Once OTS proposal is accepted and implemented through Hon'ble BIFR, company would be able to pay the debts. This will ensure repayment of dues to the lenders, NCDs holders and also FCCB holders.

## MANAGEMENT DISCUSSION AND ANALYSIS

### INDUSTRY STRUCTURE AND DEVELOPMENTS

After a period of 5 years, since the break out of the global financial crisis and with significant liquidity injection by several large economies, the macro data from the developed economies started showing trends of slow improvement during 2013 even though several structural weaknesses still needs to be addressed before these trends can be considered sustainable. Global growth remains below pre-crisis levels and much weaker than during the rebound that took place in 2010 and 2011.

After registering growth rates of 13.3% and 9.9% in FY 10 and FY 11, Indian steel consumption grew at only 5.5% during FY 12 on the back of a slowdown in demand from its key consuming industries namely construction, capital goods and automobiles. The Indian iron or mining industry in undergoing a difficult phase given regulatory intervention in various states. However, there could be a shortage of about 30mt given the on-going challenges in the mining sector.

In 2013, global steel demand grew by 3.6% to 1.48 billion tonnes due to improved performance in the developed economies especially in North America and Euro Zone in the second half of the year. However, growth in emerging markets slowed down in 2013 due to weak demand especially in developed countries and tighter financial conditions. The World crude steel production rose by 3.5% to 1.607 billion tonnes in the year 2013.

In 2013, India remained the 4th largest steel producing country in the world, behind China, Japan and the US. Crude steel production grew by 4.6% to 81.2 million tonnes and steel demand grew by 1.8%. India's GDP growth has slowed down to 5% in 2013 on account of rising inflation and tight monetary controls. This has led to weak domestic steel demand, which grew by 3.3% in 2013 inspite of rise in demand in the last quarter. This has resulted in India becoming the net exporter of steel in Financial Year 2013-14 after a gap of six years. Total steel exports by India during the Financial Year stood at 5.59 million tonnes, as against imports of 5.44 million tonnes as per the report issued by Joint Plant Committee (JPC), a unit of the steel ministry.

According to the Planning Commission of India, the country's steel production is expected to grow by around 60 million tonnes during the Twelfth Five Year Plan (2011-12 to 2016-17). India's domestic steel consumption will continue to grow steadily for several years into future driven by urbanization, favorable demography, GDP growth, refocus on industrialization and stepped-up investments in infrastructure.

Inflation has, since then, moderated, along with an improvement in the fiscal and current account deficit. A good monsoon also enhanced rural demand. The government's clearance of stalled infrastructure projects in the last quarter of FY 2013-14 has improved business sentiments. India's GDP is expected to grow by 5% and steel demand is expected to growth by 3.3% in 2014. The automotive sector (passenger vehicles and commercial vehicles), which grew by -6% in the Financial Year 2013-14, is expected to grow by about 3%-4% in Financial Year 2014-15. Similarly, the construction sector growth is expected to grow by 5% in the next year compared to growth of 1.9% in the Financial Year 2013-14.

### COMPANY'S PERFORMANCE AND HIGHLIGHTS

Due to the status of sick undertaking, working of the company has been adversely affected. Performance of the company has been affected due to financial crunch, increase in price in raw materials and non-availability of raw material in time etc. As such due to paucity of working capital, company's working is declining. Company could make optimum use of power under Open Access. As Company is not in position to optimize its full working capacity, Company had reduced its contract demand with discom company and tried to control over fixed expenses.

### INTERNAL CONTROL SYSTEM

The Company has adequate internal control procedures commensurate with its size and nature of its business. The objectives of these procedures are to ensure efficient use and protection of the Company's resources, accuracy in financial statements and due compliance of statutes and Company's policies and procedures.

### FUTURE OUTLOOK

In Financial Year 2014-15, while greater financial stability is expected in the advanced economies, growth will remain subdued in emerging and developing economies. The lower growth trajectory in China is expected to impact commodity markets adversely, including steel and its raw materials. The situation in Ukraine/Russia may increase steel availability in the rest of the world as 70% of Ukraine's steel production of 35 million tonnes per annum was exported of which ~3.5 million tonnes per annum (15% of exports) was earlier exported to Russia. The economic outlook in Europe is strengthening and the US economy shows strong signs of a better performance going forward.

Financial Year 2013-14 has been a challenging year with subdued economic growth, as a result of higher inflation, higher interest rates, lower industrial growth and lower investments in the country, along with the poor condition of the global economy. However, the Indian economy is expected to perform comparatively well in the coming years. With a stable government at the centre, significant policy changes are anticipated in the near future. The government focus on infrastructure development, more foreign direct investment inflow and more transparency in governance is likely to significantly increase the business confidence in the country.

In 2013, world steel demand grew at 3.6% because of the strengthened recovery in the US markets in the second half of the year. Steel demand in the Euro zone is likely to rise with a 4.5% increase in steel usage in Germany in 2014, 2.6% in Italy, 1.0% in France and 3.0% in Spain. India's steel demand is estimated to grow by 3.3% to 76.2 MT in 2014-15, following 1.8% growth in 2013-14. This is due to improved sentiments for the construction and manufacturing sectors, even though structural issues and persistent inflation continue to pose challenges.

Overall steel demand in developed economies will be above 2% in 2014 and 2015, while that in developing economies will continue to grow faster [Source: World Steel Association, Short Range Outlook, 2014-15]. Improving automobile and consumer durable sectors are expected to raise the flat steel demand compared to last year, while long steel demand is expected to fare relatively better due to an uptick in construction activities and the planned infrastructure growth.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements.
